

Sprint 2 Plan
PickUp, Team PickUp,
Sprint completion date: 5/8/2018
Revision number: 1.0
Revision date: 4/24/2018

Goal: Create a user profile for the player. Let them sign up for an account and allow them to set up games in their name and see games around them.

Task Listing:

1. As a player, I want to create a user profile in order to keep track of the activities so that other members can recognize me.
 - a. Create a sign up page.
 - i. 5 hours
 - b. Link sign up info into the database.
 - i. 5 hours
 - c. Create login boxes at top of main page along with a link to sign up.
 - i. 5 hours
 - d. Create account information page displaying username, email, games made.
 - i. 10 hours
 - e. Create link to account info page on main page.
 - i. 5 hours
 - f. Games added by user will go to database and display on account page.
 - i. 10 hours
2. As a player, I want to be able to see where other games are taking place so that I can join those games.
 - a. Allow users to see the games on the maps api that we have implemented already
 - i. 10 hours
3. As a user, I want the choice to make my games public or private (friends only).
 - a. When creating game, be able to select public or private. Private games can only be seen on private games tab/page. Accessable from account page maybe.
 - i. 10 hours
 - b. Create friend request
 - i. 10 hours
 - c. Create add friend
 - i. 10 hours
 - d. Allow private game requests between friends.
 - i. 10 hours

Team roles:

- Khachatur Mirijanyan: Product Owner
